As soon as the conference was over Pres't Wilson practically threw aside all official cares and went to the Piping Rock club, where he enjoyed his favorite game of golf.

The president enjoyed a good sleep on the trip from Washington and did not arise until after the train arrived Speeding Automobile Strikes in Long Island.

This evening the president's car will be attached to the Federal express at Trenton, and the president will then journey to Cornish. Miss Margaret Wilson, the president's daughter, joined her father at Trenton, Dr. Grayson, the president's personal physician, is also with him.

Washington does not expect immediate developments in the German and Mexican situations.

Pres't Wilson, however, left his new secretary of state, Robert Lansing, at the helm and the executive him ell will be in instant telegraphic touch with the white house and state department. The fact that the president has hurt. arranged a vacation at Cornish indiates that the German reply to the American note is not expected within two weeks. It was suggested originally that this reply would be forthcoming before the end of the present week, but these predictions now appear not to have been well founded. Authoritative advices from Berlin are to the effect that the most careful study is being given by the German government to the American protest and that the kaiser is to put the finshall have passed through the hands the fruit and other ontents was scatof the experts in the foreign office.
